PRESIDENT'S REPORT

St. Luke's Hospital has been organized for seventy-three years as a non-profit hospital, serving to the limit of its financial resources those patients who cannot pay part or all of the cost of their care in the hospital. It owes its existence and the opportunity to prove this to the philanthropy of the community. In the recent depression years the hospital has necessarily been obliged to curtail these services, thus preventing it from meeting certain demands of these patients.

In the last six years, due to reduced income from all sources, we have found it necessary to operate under a very rigid and restricted budget. However, conditions beyond our control have now forced us to accept these increased costs of operation.

It is encouraging to note the increase in hospital days of private patients, which partially indicates to me that the Board of Trustees may anticipate a reduced deficit; however, our hospital will be faced in the future with the necessity of raising funds to meet the floating debt, increased wages to personnel with shorter hours, and the constantly increasing cost of hospital supplies and commodities.

Our friends must know that the voluntary hospital performs an essential human service, more important to those who need its ministrations than almost any other voluntary agency, and it must be prepared to meet all emergencies that may arise.

I take this occasion to mention to our friends that St. Luke's Hospital has reached its present position of high efficiency and value to the community as a result of the combined efforts of all those interested in its welfare and success, and it must have the continued support of the philanthropic citizens and friends who have helped it in the past, as well as the support of new ones.

The new and enlarged X-Ray Department occupies ten thousand square feet of floor space, has been completely furnished with modern diagnostic and therapy equipment and is now in operation.

Six additional operating rooms and a doctors' lounge have been added to the main operating suite formerly occupied by the

X-Ray Department. With these additions the entire nineteenth floor of the Main Building is devoted to operative procedures.

The removal of the nurses' educational department from the second to the twelfth floor brought many improvements, comforts and conveniences to the faculty and the student body, and has provided a strictly modern and adequate department.

I wish to thank Messrs. A. Watson Armour, Chairman of the Operating Committee, Walter B. Smith and Joseph T. Ryerson for their support and time given to the planning and construction of the departments recently completed.

I wish to thank The Woman's Board for their financial and moral support. To the officers and members of the Medical Board I express my sincere thanks for their untiring interest and cooperation.

REPORT OF THE SCHOOL OF NURSING

1936

Through the years of the depression it had been the policy of both the hospital and school administration to keep the student enrollment at a comparatively low figure in order to mitigate against acute unemployment in the ranks of our graduates. Consequently, with the gradual increase of business activity in 1936, and the growing demand for nursing service, it was apparent from the beginning of the year that every effort should be made to increase the enrollment in the school in order to augment the supply of both private duty and institutional nurses. So conscientiously had we fought against increasing the ranks of the unemployed that 1936 found us without a sufficient nursing body to meet the demand.

Our effort to augment the school enrollment resulted in a net increase of 25 students before the end of the year. On December 30, 1935, the enrollment stood at 167. On December 30, 1936, it had risen to 192. It must be understood that as industrial and commercial organizations increase their personnel, it becomes increasingly difficult to admit as large classes as we might desire, since the high school graduates move directly from school into gainful occupation.

There was during the year, a sufficient increase in bed occupancy in the hospital to necessitate an increase in the graduate general duty nursing staff. Whereas an average corps of 50 graduates had proved adequate during the previous year it was necessary to increase the number to an average of 60 during 1936.

The removal of the school of nursing from the second floor of the Main Building to the twelfth floor was the outstanding event of the year. This removal brought many improvements, comforts and conveniences to the faculty and the student body. The full-time instructors have been provided with private offices, and the old chemistry laboratory has been succeeded by a strictly modern and adequate one. The new quarters of the school library show similar improvement. The space available for social activities has been considerably extended, a spacious sun parlor and a commodious serving kitchen having been added to the suite of rooms

RULES

AS TO

ENDOWED ROOMS AND BEDS

A donation of \$5,000 endows a bed in a ward with the right to name the bed in perpetuity, but without the right to nominate occupants for the bed.

A donation of \$7,500 endows a bed in a ward with the right to name the bed in perpetuity and the right to nominate the occupants of the bed during the life of the endower.

A donation of \$10,000 endows a private room with the right to name the room in perpetuity, but without the right to nominate the occupants of the room.

The sum necessary to endow a private room in perpetuity with the right to name the occupants thereof shall depend on the size, location and general desirability of the room selected.

The right to nominate the occupants of a bed or room shall be understood to mean:

That the endower shall have the right to nominate one patient at a time to occupy the said bed or room, and if all beds or rooms are occupied to a preference over all other applicants when a vacancy occurs.

In the event that an endowed bed or room is occupied the Hospital reserves the right to place the patient in some other equally good bed or room.

Persons nominated to free beds or rooms should be worthy subjects for such charity.

Persons whose means admit of their paying for hospital care and treatment are not acceptable as occupants of free beds.

Where endowments are made with the privilege of electing the occupant, the service given the occupant so named shall not exceed the income from the endowment at the average rate of return from the endowment funds of the hospital.

available for recreation. The nurses lounge and recreation hall, beautifully decorated under the direction of Miss Cornelia Conger and Mrs. I. Newton Perry, provide an atmosphere never possible in our previous quarters.

The Woman's Board has again augmented the income from the Herman H. Hettler Jr. Fund to such an extent as to provide in a totally adequate manner for the various student affairs during the year and for the exceptionally beautiful graduation exercises at St. James Church. The Ladies Auxiliary supplied the school with a new vacuum cleaning outfit and reconditioned the Chase Demonstration Doll. Both gifts met a crying need.

To the school's affiliations with the Municipal Contagious Disease Hospital, the Visiting Nurse Association and the State School of Psychiatric Nursing, has been added an affiliation with the Municipal Tuberculosis Sanitarium. This new affiliation is presented to the student on an absolutely voluntary basis. She may, at her discretion, substitute it for one of the already existing courses.

To the many members of the Medical Board, and to the members of the departments of anaesthesia, dietetics, physiotherapy and electrocardiography, who have cooperated in the classroom instruction, the Administration of the School of Nursing takes this opportunity to express its thanks.

Respectfully submitted,

JANET FENIMORE KORNGOLD,
Director.

TO THE BOARD OF TRUSTEES OF
ST. LUKE'S HOSPITAL:

We have made an examination of the balance sheet of ST. LUKE'S HOSPITAL (an Illinois corporation organized not for profit) as at December 31, 1936, and of the statement of income and expenses for the year ended that date. In connection therewith, we examined or tested accounting records of the hospital and other supporting evidence and obtained information and explanations from officers and employees of the hospital; we also made a general review of the accounting methods and of the operating and income accounts for the year. Our detailed audit of the transactions was limited to test-checks of certain transactions mainly for one month of the year.

The accompanying statements reflect the segregation of assets of the various funds as recorded on the books of the hospital during the year 1934. This segregation was made by officials and counsel of the hospital after a study of the available documents relative to bequests and endowments. Our examination did not include a review of such documents.

In our opinion, based upon such examination, the accompanying balance sheet and related condensed statement of income and expenses, subject to the notations thereon, fairly present, in accordance with accepted principles of accounting consistently maintained by the hospital during the year under review, the financial position of the hospital at December 31, 1936, and its income and expenses for the year ended that date.

NOTES:

- (1) The reserve for depreciation of buildings includes provisions for depreciation only up to and including the year 1912; no provisions have been recorded on the books subsequent to that year.
- (2) Investments are stated at amounts carried on the books without regard to such decrease as would occur if such assets were recorded at book values or market, whichever the lower.
- (3) Bonds having a book value of \$39,746.25 (quoted market price \$44,568.75) included in the endowment-fund investments are also recorded on the books and balance sheet of the Linen Committee as assets of that organization. Other than these bonds, assets of organizations which function in connection with the activities of the hospital are not included in the above balance sheet.
- (4) Uncollected subscriptions to the Greater St. Luke's Campaign Fund, in the aggregate amount of \$128,398.93 as shown by the records of the hospital, are not included in the above assets.

Information Relative to Pay Patients

Medical and Surgical Fees in the case of pay patients are fixed by private arrangement with the Attending Physician or Surgeon.

PRIVATE ROOMS

The rates in the Smith Memorial Building are: Single rooms, \$7.75 to \$17.25 per day. Relatives or friends will be accommodated as guests when the available space will permit.

The rates in the Main Building:

Single Rooms, per day.....	\$6.25
Semi-private Rooms, per day.....	5.00
Ward rates, adults, per day.....	4.00
Children under twelve years old, per day.....	1.00

GRADUATE NURSES

Graduate special nurses may be employed by patients at the following rates:

8-Hour Service\$5.00 Per Day

The transaction is directly between the nurse and the patient, and payment should be made to the nurse.

Nurses' meals will be billed by the hospital on patients' accounts.

AN EXTRA CHARGE WILL BE MADE FOR THE FOLLOWING:

Use of operating or delivery rooms; gas anaesthetics; X-Ray and electrical examinations and treatments; Electrocardiographic tests; Metabolism tests; Physiotherapy treatments and unusual articles of diet, medicines, apparatus and dressings.

HENRY BAIRD FAVILL LABORATORY

The corps of workers in the Henry Baird Favill Laboratory aims to complete promptly and accurately the many requests for routine examinations of patients at St. Luke's Hospital. An earnest effort is continually being made to maintain a high standard in the quality of work and service rendered. Improvements in technical procedures and new methods are added whenever their worth or need has been demonstrated.

The following table summarizes the routine examinations completed during the year 1936. The total is approximately the same as for the preceding year.

Red and white blood counts, and hemoglobin estimations	37,962
Blood coagulation tests	874
Differential blood counts	2,032
Blood typings	999
Gastric analyses	650
Stool analyses	2,839
Urinanalyses	18,287
Stool examinations for amoeba	2,257
Bacterial examinations	6,534
Widals	38
Blood cultures	190
Typhoid vaccines released	403
Guinea pig autopsies	50
Milk and cream examinations	508
Blood Wassermann tests	2,530
Spinal fluid examinations	301
Blood compatibility tests	365
Chemical examinations	4,640
Surgical tissues	4,417
Postmortem examinations	167
TOTAL	86,043

Differential blood counts	319
Gastric analyses	654
Stool analyses	295
Urinanalyses	7,488
TOTAL	11,490

Research investigations have been continued in the laboratory as in other years. Mr. Paul J. Hartsuch held the Seymour Coman Fellowship from the Chemistry Department of the University of Chicago during the year 1936. His training in physical chemistry fitted him especially for research studies of the chemical reactions between fatty acids and alkaline aqueous solutions of bases, such as calcium, magnesium, and other elements. These investigations have an important bearing in understanding the processes concerned with disturbances in the metabolism of fat substances in the body and certain degenerative diseases. Additional support to this work was provided by the Watson K. Blair Memorial fund.

Dr. E. D. Zeman held the John Jay Borland Fellowship during the year. His work was mainly in experimental pathology. An interim appointment under this fellowship fund during the summer of 1936 was given to Dr. C. S. Hagerty, Assistant Professor of Pathology at the University of Alabama. While here and at the University of Alabama, Dr. Hagerty completed an experimental study of glomerular lesions produced in the kidneys of rabbits by fats, fatty acids, and soaps.

The Winfield Peck Memorial Fund administered through Dr. J. A. Capps made possible other research investigations in experimental pathology and acute infections. The benefits of the Albert B. Kuppenheimer Fund supported the studies by Dr. J. I. Brewer of small human embryos. This provided the material for Dr. Brewer's thesis for the Doctor of Philosophy Degree in Anatomy awarded by the University of Chicago in June, 1936. He, with Dr. J. E. Fitzgerald, received the annual award for the best report of original investigation submitted to the Central Association of Gynecologists and Obstetricians.

The following publications from the laboratory were completed during the year 1936:

The use of the microprojector purchased by the Medical Board in the weekly staff clinics has greatly improved the demonstration of histological preparations. Recently, the Women's Auxiliary of the Medical Board provided for the purchase of a projector of opaque objects for use in the weekly staff clinic. This also is a valuable addition.

Again, the Laboratory expresses grateful appreciation for the support given during the year.

Respectfully submitted,

EDWIN F. HIRSCH, Ph.D., M.D., Director.

REPORT OF THE PRESIDENT OF THE WOMAN'S BOARD OF ST. LUKE'S HOSPITAL

Our Tenth Annual Fashion Show, given in October, netted \$29,827.61. During these ten years The Woman's Board has raised \$279,552.45 in this way.

The proceeds derived from our Fashion Shows give our various committees the opportunity of accomplishing much for the Hospital.

The Social Service Department is our largest activity. 54,228 clinical visits to this department were made in 1936, at a cost of \$18,451.53 to The Woman's Board.

We gave to the Hospital during 1936 a total of \$36,194.22 through the Social Service and Occupational Therapy Departments, Linen, Nurses', Kindergarten, Clothing and Layette Committees. This amount also includes the salary of the Recreational Director (which position has been discontinued), Free Bed Fund, \$3,000 to the Bronchoscopic Department, the purchase of screens, Venetian blinds and drapes for the Nurseries, furnishing the Reception Room, Easter, Graduation and Christmas flowers, trees and decorations.

Mrs. Charles H. Schweppe gave a most generous gift of \$5,000 to Mr. Armour to redecorate Main 6 and 7. At the request of Mr. Armour The Woman's Board revived their Furnishing Committee, and this committee has supervised the entire decoration of these two floors. They have also made the plans for the decorations in the new X-Ray and Therapy Departments on Main 2, furnishing the waiting room in a gay and modern manner. Through The Woman's Board and the Chicago Ogontz Association they have redecorated the two waiting rooms on Main 6 and 7, and they have done over the "F" floor Nursery and are now doing the ladies' dressing room on the ground floor of Smith, including new plumbing.

In the death of Mrs. C. O. Meacham in April The Woman's Board lost one of its earliest and valued members. Mrs. Meacham was identified with the work of the Hospital for more than thirty-

five years. She served for many years as Chairman of the Linen and Blanket Committees.

We accepted with regret two resignations, Mrs. Charles F. Meyer, III, and Miss Mary L. Newberry.

New members elected during the year were Mrs. A. Watson Armour, III, Mrs. J. Beach Clow and Miss Cornelia Conger. Our Board consists of 57 Active Members, 2 Honorary and 2 Senior Members.

In closing, I wish to thank each member of The Woman's Board for her loyalty and effort in our accomplishments of the year, and to assure the Trustees of our great pleasure in assisting them in the work for the Hospital.

Respectfully submitted,

EMILY LYON GARY.

Wrote Mrs. Alan C. Dixon notifying her of the contribution in memory of her mother, Mrs. John S. Miller, sent to the Hospital by Mrs. Edward L. Ryerson, Jr.

Sent letter of congratulation to Mrs. Thomas J. Coogan, President, upon the work of the Women's Auxiliary of the Medical Board.

Wrote Mr. Boulter of Edward Gore & Co., thanking him for auditing the books of the Linen Committee.

Letters sent to Mr. Chauncey Borland thanking the Trustees of the Hospital for their letter of appreciation.

Wrote letters thanking Mrs. Raymond M. Ashcraft for the scales donated to Main 8; Mrs. Frank P. Hixon for her gift of a new Chevrolet to the Social Service Department; Mrs. Ogden Armour for the peonies sent to the Nurses' graduation and for the set of wicker furniture for the Nurses' rooms; and Mrs. Douglas K. Huntress, President of the Ogontz Alumnae for their gift of Five Hundred (\$500.00) Dollars.

Letters sent with gifts to the following, thanking them for helping make the Fashion Show a success:

Miss Marion George
Mrs. Alice Brough Healy
Mrs. Lucy Hartman Delano

Notified Mr. Wordell of the motion passed abolishing the position of Recreational Director and giving Miss Shannon a month's vacation with pay, and salary for a month besides.

Wrote Mr. Grant Pollock that we would be unable to sponsor his National Winter Sport Fashion Show.

Respectfully submitted,
HARRIET BORLAND,
Corresponding Secretary of the Woman's Board.

Mrs. Harold C. Smith,
Treasurer, Woman's Board of St. Luke's Hospital,
Chicago, Illinois.

Dear Madam:

In accordance with your request, we have examined the records of the Woman's Board of St. Luke's Hospital for the year ended December 31, 1936.

The cash receipts as shown by the records were checked to the deposits indicated by the bank statements. All cash disbursements were supported by cancelled checks. The balance on deposit in the Northern Trust Company at December 31, 1936, amounted to \$36,802.68 as shown by the bank statement and by the accompanying statement of cash receipts and disbursements for the year under review.

The following investment securities held in the vaults of The Northern Trust Company, as custodian, were confirmed to us by that bank:

	Par Value	Cost	Market Value Dec. 31, 1936	Interest Received During Year 1936
American Rolling Mill Company, 5% sinking fund gold debentures, due January 1, 1948.....	\$4,000.00	\$3,984.00	\$4,150.00	\$200.00

FLOWER REPORT

1936

At Easter a Begonia plant was given to each patient of the Hospital. Lily plants were placed at the entrances of the Hospital and on "C" Floor dining room, and also on the dining room tables for the internes, nurses and personnel of the Hospital.

Members of the Chicago Ogontz Association were kind to trim the Christmas trees and The Woman's Board is grateful to them for their services. The trees and decorations were donated by members of The Woman's Board. A red rose was placed on the tray of each patient and red carnations were given to each of the Hospital staff.

ADMISSION OF PATIENTS

*The Charge for Children under 12 years
of age, Ward Beds, is \$1.00 per day*

The Charge for Open Ward Beds is . . \$4.00 per day

*The Charge for Semi-Private Beds is . . \$5.00 and
\$5.50 per day*

*The Charge for Private Rooms is . . \$6.25 to
\$17.25 per day*

The Hospital cares for about 500 wholly free patients, and will, when there are vacant beds in the open wards, receive patients whose means will not permit them to pay, provided they are admissible under the rule governing the admission of patients.

Application for the admission of free patients who are unable to apply in person, must be made prior to sending them, and should be made between the hours of 9 a.m. and 5 p.m. All promises of admission are made subject to the result of an examination, as to admissibility, on their arrival at the Hospital.

The financial status of all free patients is investigated by the Social Service Department and free treatment will not be given unless justified by the report.

Visitors to patients in the Main Building should apply at the Indiana Avenue office.

EXTRACT FROM RULES

"The Hospital is for the treatment of acute, curable, non-contagious diseases and injuries. The following are inadmissible: Sufferers from contagious, dangerously infectious, or incurable diseases, drug habits, delirium tremens, insanity and persons whose presence in the wards would be prejudicial to the welfare of the other patients.

"Patients who refuse to accept the treatment prescribed by the Medical Staff, or refuse to comply with the instructions of the physicians or nurses, or who willfully violate the rules of the Hospital will be discharged."

REPORT OF THE FURNISHING COMMITTEE

1936 has been a very active year for our committee as many changes have taken place in the hospital which concerned us.

First, our youngest member, Mrs. Osborne, was asked to supervise the coloring and get new curtains for the nursery and, as she has two babies of her own, she seemed to know just what is conducive to infantile felicity and did an excellent and attractive job.

Then through the generosity of a gift of \$5,000 from Mrs. Schweppe to Mr. Armour, we were asked to do over the 6th and 7th floors in main—39 rooms in all. As 7 is for women only, we decided that peach color was a becoming and cheering but not too stimulating tone so that became the basis on that floor. On 6 (for the men) we alternated rooms of a soft chalky blue with those of an equally restful pale green—but not of the pea-soup variety. The walls in all the rooms and corridors were freshly painted, the old beds, bed-tables, and bureaus were made to harmonize with the new colors. We bought Venetian blinds, two complete sets of curtains, pleasantly blending rugs, ceiling fixtures, hospital screens to hide the wash-stands, and comfortable easy and straight chairs.

Then the nurses' school and recreation rooms were to be moved from the 2nd to the 12th floor and we repainted all of 12 in a scheme of blue, grey, and yellow. All the old furniture was used, but Mrs. Perry chose very good looking new curtains for the nurses' lounge and the assembly rooms. The assembly room really needs some new furniture badly.

Then the men's committee asked us to help out with the 2nd floor where all the new X-ray and therapy rooms will be. Here again, as on 6 and 12, we were confronted with the blue in the corridor floors and took our dominant note from that. With the vagaries of painters and the fact that paints change, none of the blues really do match exactly. For this floor, we have furnished a waiting-room in what we hope is a smart and gay modern manner: blue walls, chromium furniture with grey and blue covering and a few notes of Chinese red.

Our well-thought out scheme for the treatment rooms came to naught as the scientific companies supplying the machinery pre-

scribe all sorts of odd colors guaranteed to give the best results so that if the floor resembles a basket of garish Easter eggs, it is really not an example of our taste.

Mr. Wordell said that several rooms on F in Smith, the maternity floor, needed freshening so we decided that as our peach color had proved so popular with the patients on 7, we would repeat it. We also checked over all furniture on F and are trying to weed out the heavier, uglier pieces and fixtures and bring up from lower floors the simple ones that lend themselves to painting. We felt that this floor was a good one psychologically to begin on. Patients are young and a few days after their babies come can take an interest in their surroundings and like them to be becoming, feminine, and cheery. Also, they have more visitors than on other floors and it is good publicity for the hospital to have outsiders see how attractive and up-to-date we can be. This work is slowly going on now.

It is our hope to replace gradually throughout Smith the dingy colors and the cumbersome furniture as we are able.

Now we are furnishing the two waiting-rooms on 6 and 7. The Ogontz Society has given us money for 7 and we have done it to harmonize with the rest of the floor: peach walls, maple furniture, curtains and coverings in brown and copper tones.

The Woman's Board has given us funds for the waiting-room on 6 and we have done it somewhat like the waiting-room on 2 with chromium furniture and blue and Chinese red.

Our last problem has been handled by Mrs. Perry and Mrs. Gary—the ladies' dressing-room on the ground floor of Smith. Mrs. Gary has given us new plumbing and she and Mrs. Perry are planning a dressing-table, new curtains, and coverings.

This is a very long report but I imagine since Main was built that there has not been any one year when so much work has been done by this committee.

As Mrs. Perry is sailing before the meeting, she left the writing of our report to me.

Respectfully submitted,

CORNELIA CONGER.

KINDERGARTEN REPORT—1936

Special parties were given for the children on Main 8, consisting of favors, ice cream and cake on the following holidays throughout the year—Valentine's Day, Washington's Birthday, St. Patrick's Day, Decoration Day, Fourth of July, Hallowe'en, Thanksgiving and Christmas.

The children had a very fine Christmas. Due to the fact that most of them beg to be home at Christmas, and when it is possible they are dismissed, there were only twenty-five children in the ward for Christmas. The following donations were received to buy Christmas presents: \$50 from Mr. Walter B. Smith, \$50 from The Service Club and \$50 from Mrs. Frank Lowden. With this money the children were given dresses, dolls and dishes for the girls and the boys received trains, sweaters, socks and caps. Each child had two filled stockings, one from the wives of the doctors and the other filled with toys purchased with the remainder of the three checks that were received. There were three Christmas trees in the ward, one on the sun porch and the others in the girls' and boys' wards. At noon their trays had the usual holiday favors and their favorite ice cream and cake.

During the year a motion picture projector was purchased for Miss Bonfield. This has proven to be invaluable in showing educational pictures to the children who, due to illness, have been forced to miss a certain amount of schooling.

Mrs. Raymond M. Ashcraft gave to the Children's Ward a very fine scale with measuring rod combined.

ANNUAL REPORT OF THE LINEN COMMITTEE OF ST. LUKE'S HOSPITAL—1936

Madam President and Members:

During the past year we have given the hospital 4,660 articles at a cost of \$2,178.78, also supplied the Training School with 2,044 articles which cost \$1,247.84.

We have continued the salary of the Supervisor of Linen at \$1,221.84 and the rent of our Vault Box at \$6.60 and spent \$26.34 for printing during the year. Ten nurse's uniforms were again given the City Contagious Hospital as a gift from St. Luke's valued at \$10.00.

Twenty-four churches have sewed for us during the year completing 3,479 garments which has greatly relieved the Sewing Room.

Two new articles have been added to our regular list for the year. Screen panels for Main Building and small absorbing pads, the total amount given the hospital as shown in the following financial report of disbursements this year being \$4,681.50, less \$105.00, the reimbursement for extra material purchased for screen panels and \$22.30, the refund for uniforms bought by the employes, or a net amount of \$4,554.20.

May we take this opportunity of thanking all those who have given to our funds and the churches for their continued assistance in making our various garments during the past year.

Respectfully submitted,

MAY W. ELDRIDGE,

Chairman.

AUDITOR'S REPORT

ST. LUKE'S HOSPITAL LINEN COMMITTEE

Linen Committee,
St. Luke's Hospital,
Chicago, Illinois.

Mesdames:

We have examined the cash transactions of the Linen Committee of St. Luke's Hospital as disclosed by the Treasurer's records for the year ended December 31, 1936, and submit herewith our report together with the attached Balance Sheet at December 31, 1936, and statements of Receipts and Expenditures and Income from Investments for the year.

INCOME AND EXPENDITURES

Receipts on account of income for the year exceeded the total expenditures by \$188.08, compared with a deficit of \$545.87 for the preceding year.

The following is a summary of the receipts and expenditures for the two years ended December 31, 1936, exclusive of the cash transactions representing realization from investments:

Receipts—Income:	1936	1935	Increase
Donations	\$1,114.00	\$ 25.00	\$1,089.00
Interest	3,637.50	3,376.98	260.52
Miscellaneous	138.94	77.45	61.49
	<u>\$4,890.44</u>	<u>\$3,479.43</u>	<u>\$1,411.01</u>
Expenditures:			
Salary	\$1,221.84	\$1,221.84	
Supplies and Materials.....	3,426.62	2,776.51	\$ 650.11
Miscellaneous	53.90	26.95	26.95
	<u>\$4,702.36</u>	<u>\$4,025.30</u>	<u>\$ 733.95</u>
Income in Excess of Expenditures.....	<u>\$ 188.08</u>	<u>\$ 545.87</u>	<u>\$ 733.95</u>

The increase in net income for 1936 is due primarily to a donation of \$1,000.00 from the Woman's Board. Expenditures for supplies and material increased \$650.11.

BALANCE SHEET

The assets of the Jessie Spalding Landon Fund and the Linen Committee General Fund at December 31, 1936 are presented in detail in the Balance Sheet attached in Schedule I. They may be summarized as follows:

	Jessie Spalding Landon Fund	General Fund	Total
Cash in Bank.....	\$ 246.19	\$ 2,196.27	\$ 2,442.46
Real Estate Notes.....		18,850.00	18,850.00
Bonds	39,746.25		39,746.25
	<u>\$39,992.44</u>	<u>\$21,046.27</u>	<u>\$61,038.71</u>

Cash in banks at December 31, 1936 was reconciled with statements furnished by the depositories. We ascertained that disbursements during the year were supported by cancelled checks, invoices, etc., and that receipts recorded in the cash book were deposited in the bank, but our examination of the receipts was limited to the verification of the income derived from securities.

The notes of the Chicago Automatic Conveyor Company for \$5,000.00, due July 9, 1932, are unpaid. Interest on these notes has been paid at the rate of 5% to July 9, 1936, but we are advised that 6% interest will be resumed from that date. Three years interest amounting to \$270.00 is past due on the John H. and Hattie Petzel note.

We inspected the notes receivable amounting to \$18,850.00 which are kept in the safety deposit box, and we have received confirmation from the Northern Trust Company that bonds of the par value of \$40,500.00 were on deposit in that bank. The accompanying statements do not reflect the value of any interest which the Linen Committee may have in the principal of the Robert W. Roloson Fund, which we are advised is carried as part of the general endowment funds of St. Luke's Hospital.

Investments are stated at cost, and we have not investigated their present market values.

We wish to acknowledge the assistance and courtesies extended to our representative during the conduct of his work.

Respectfully submitted,

EDWARD GORE & COMPANY,

January 22, 1937.

Certified Public Accountants.

NURSES' COMMITTEE

Report for 1936

The Nurses Committee during 1936 took care of all expenses of the Nurses Graduating Exercises, furnished a Baumanometer (blood pressure machine) to be used exclusively by the nurses for students and members of the Training School, and paid Miss Keener's railroad fare to the Annual Convention of the American Nurses' Association in Los Angeles, California, last June.

A copy of Miss Keener's report of the Convention was considered so valuable that a copy of it was sent to each Trustee of the Hospital and to each member of the Woman's Board.

Through the Hettler Fund the Committee provided afternoon tea for the nurses five days a week for eight months of the year and began the custom of having a monthly community birthday party for the students whose birthdays occur during each month. Decorations for holidays and music and refreshments for dances in the training school were provided.

Respectfully submitted,

MRS. CHAUNCEY B. BORLAND.

AUDITOR'S REPORT NURSES' COMMITTEE OF ST. LUKE'S HOSPITAL

Nurses' Committee of St. Luke's Hospital,
Chicago, Illinois.
Mesdames:

We have made an examination of the cash records of the Treasurer of the Nurses' Committee of St. Luke's Hospital for the year ended December 31, 1936, and submit herewith a statement of the cash transactions for the period under review.

The receipts and disbursements for the year may be summarized as follows:

Receipts:

Woman's Board—Fashion Show.....\$1,500.00

Disbursements:

Graduation Expenses.....	\$423.43	
Traveling Expenses.....	142.00	
Baumanometer	27.35	592.78
		<hr/>

Receipts in excess of Disbursements.....\$ 907.22

As a result of the above excess of receipts over disbursements the bank balance increased from \$286.23 at January 1, 1936, to \$1,193.45 at December 31, 1936. The balance is on deposit with the Continental Illinois National Bank & Trust Company, and was confirmed by a certificate from the depository.

In the course of our examination we examined cancelled checks, invoices, etc., submitted in support of the disbursements, but as the minute book was not available for our inspection we did not compare the disbursements with the expenditures authorized.

Yours respectfully,

EDWARD GORE & COMPANY,

January 26, 1937.

Certified Public Accountants.

.....

The Woman's Board invited the Illinois Occupational Therapy Association to hold its January meeting at St. Luke's Hospital. Occupational Therapists and Board Members of all the Occupational Therapy Departments in the city attended. Members of The Woman's Auxiliary of the Medical Board of St. Luke's also attended. Dr. John S. Coulter gave a lecture and conducted a clinic demonstrating patients taking exercises as treatment. Several new and worth-while pieces of equipment that have originated or been perfected in our department were exhibited. Moving pictures were shown, including some of the pictures taken of our own patients with the department's new movie camera. Tea was served.

Mrs. Abbey and Miss Vetting attended several meetings to help with the Occupational Therapy program at the Tri-State Hospital Association Convention held at the Hotel Sherman in May.

Mrs. Abbey gave a talk and demonstration at the Nurses' Convention held at Cook County Hospital. She also gave talks to three groups of high school students, discussing Occupational Therapy as a possible vocation.

A lecture with moving pictures and demonstrations of cases was given by Dr. Coulter for a meeting of the Grey Ladies.

Instruction was given PWA students to prepare them for treatment of patients at the Goodwill Industries, the Municipal Tuberculosis Sanatorium, etc.

Moving pictures were taken of patients at work in the shop and on the wards.

Lectures and workshop demonstrations were given to student nurses. Term papers of student nurses were graded.

Several school children with spastic disturbances were brought to the shop by their mothers on Saturday mornings. The children received treatments and their mothers were instructed how to give them treatments at home.

OCCUPATIONAL THERAPY DEPARTMENT ST. LUKE'S HOSPITAL

Occupation Therapy Department,
St. Luke's Hospital,
Chicago, Illinois.

Dear Mesdames:

We have audited the records of the Occupational Therapy Department of the St. Luke's Hospital for the year ended December 31, 1936, and submit herewith a statement of cash receipts and disbursements for the period.

Cash disbursements were supported by cancelled checks. The amount of cash in bank was reconciled to the bank statement.

We verified that the Treasurer of the Woman's Board of St. Luke's Hospital holds for the Occupational Therapy Committee the following security:

Mortgage & Real Estate Corporation Notes, Inc., registered 5% due January 1, 1955 (\$1,000 less 10% paid) \$900, market value December 31, 1936, \$414, which were received during the year in exchange for Chicago Title and Trust Company, as Trustee, 5% bond, Series "E" due May 1, 1942, certificate of deposit (Hettler Fund) Par value \$1,000.

During the year under review the principal payment of \$100 and interest of \$18 on the foregoing security was received by the Woman's Board of St. Luke's Hospital. The interest of \$70 collected by the Woman's Board in 1935 on the above security was remitted to the Treasurer during the year under review.

Yours faithfully,

ARTHUR YOUNG & COMPANY,

January 22, 1937.

Certified Public Accountants.

ANNUAL REPORT
SOCIAL SERVICE DEPARTMENT
ST. LUKE'S HOSPITAL

1936

During the year 1936 the visits to our clinics totaled 54,228 made by 10,806 patients. This was a decrease from 1935 of 8,238 visits. This decrease was due to fewer patients being referred to us from public agencies, and has enabled us to give greater care to the admission of applicants to the services of our clinics.

The work of the Admitting Department has been greatly increased due to the constant change in families who had not been in the clinic for the past six months. More time has been spent in taking initial social histories as our new records now incorporate all information advised by the clinic section of the Health Division of the Chicago Council of Social Agencies.

The number of initial interviews for clinical care has remained about the same, but there has been a decrease in the number of families on relief and an increase in the number of families who were able to meet the clinic fees. Out of the number of applying cases not accepted for clinic care approximately 36 per cent were referred to private physicians, 16 per cent were already established in other clinics, 14 per cent were not admitted as clinics were overcrowded, 34 per cent were not admitted for miscellaneous reasons, such as: Out of geographical area, compensation cases, applicants who attend for information only, that is, chiefly to check on a diagnosis made elsewhere. Such cases are referred back to the source from which they came. Patients who are unable to meet our clinic requirements we refer where proper services may be rendered.

The daily Medical Clinics have become increasingly crowded during the year, and the difficulty in securing hospitalization is our greatest problem. This shortage restricts extensive diagnostic study and eliminates from the clinic many patients of real medical and social interest who are obviously in need of hospital care.

Facilities for convalescent care are still inadequate, especially for the colored group, but this need is entirely overshadowed by the absolute lack of provision for the chronically ill patient. Because of the permanency of this condition, we are increasing our time and effort on diabetic and cardiac groups. We have 180 active diabetic patients, and through home calls, letters and fre-

quent dietary and medical instruction, we are emphasizing to them the need of constant supervision. In this way we avoid the need and expense of Insulin and hospitalization and make it possible for our patients to lead the normal life which they could not otherwise enjoy. The same educational procedure applies even more to the 510 active cardiac patients who are followed by us, and with the excellent assistance of the Visiting Nurse Association, the special schools and the private and public agencies, we think that in these cases every effort is justified.

During the year many of our patients received WPA assignments, but not until a detailed report of their condition and recommendations regarding activity was received from us. We feel that in this respect a definite service has been rendered to the community as well as to the patient. This procedure is also followed by the Illinois State Employment Service, particularly the Handicapped Division.

During the summer months many of our cardiac mothers were sent to the Salvation Army Camp. Here they were greatly improved and enjoyed their first real rest.

Mrs. Orma Peckham is in charge of our Medical Clinic, assisted by our Volunteers and Gray Ladies.

Mrs. Peckham is always available for consultation with our patients and doctors, and on home calls she takes with her student nurses.

The Surgical Clinic is held daily every afternoon except Saturday, when there is a morning session. We average about 400 visits a month. Eighteen surgeons are in charge of this clinic, assisted by Miss Myrtle Peterkin, one of our St. Luke's nurses, who has been on our staff about ten years. Miss Peterkin was aided in this work by the Volunteers and Gray Ladies.

The Urology Clinic is held four days a week, with four urologists in attendance. Many cystoscopies and kidney lavages are performed. Miss Peterkin also has charge of these clinics. Besides helping the doctors with minor operations, cystoscopies, etc., she contacts all patients, arranges hospitalization and assumes responsibility for methods of treatment recommended by the doctors.

The Orthopedic Clinic is held four times a week with eight doctors in attendance. The daily average of patients is 25, of which more than half are children. The children registered with us are usually enrolled in one of the five special crippled children's

schools, and are brought back and forth during the week-days by the Board of Education school buses. Many of our patients receive material relief from the United Charities, and the Chicago Relief Administration, as well as home nursing care from the Visiting Nurse Association and the Municipal Tuberculosis Sanitarium nurses.

The Gray Ladies and Volunteers give many hours of their time to this department, occupying themselves not only with the clinic routine but with driving patients to and from clinics. They have also donated many gifts to the patients, such as tickets for the Junior League Children's Plays, clothing, magazines, etc., and have remembered many of the patients at Christmas time.

Shoes and clothing were purchased for our patients through our Clothing Fund; braces and orthopedic appliances by our Social Service Department. Additional equipment was supplied by the Visiting Nurse Association, the Marquette Charitable Organization and the Chicago Relief Administration.

The Gynecological Service holds five clinics each week, with seven doctors in attendance, two doctors to each session. Miss Helen Connors, our Social Worker, is in charge at each session. Hospitalization was arranged for 161 patients, 95 of whom paid their own expenses, 40 of whom were on the Community Fund and 25 on relief. Carcinoma patients present the greatest problem from the medical and economic standpoint. Out of 14 patients hospitalized, one patient was able to pay her own expenses, four were on relief and nine were charged to the Community Fund. At present we have thirty-six active cases of carcinoma, of which only three are in the advanced stage.

The services of the Visiting Nurse are often required to administer various treatments after the patient returns home. A small percentage of our patients are referred to convalescent homes to insure complete recovery before attempting to resume their regular duties. The attendance of the Volunteers and Gray Ladies has been most helpful in rounding out the clinic routine, and to them we are deeply grateful.

This seems to be a pertinent place to read one of the many letters we receive from our patients. This greeting is from a charming elderly woman of seventy-five, who resides at the Old People's Home in the City of Chicago:

"To the surgical doctors responsible for my good health and happiness today, Seasons Greetings:

If your house and my house were standing side by each
I'd call upon you Christmas day and make a little speech;
I would thank you for your kindness,
For all you've done and do
In making us 'grown-older' folks
All over—good as new."

The Obstetrical Clinic, with Miss Ethel Bloomquist in charge, assisted by the Gray Ladies and Volunteers, has had another busy year, arranging for 700 deliveries in the ward and for adequate prenatal care. Ninety-eight and four-tenths per cent of these patients paid for their own confinement, which costs \$35.70 for delivery and ten days' hospital care.

Fourteen Community Fund, seven relief and two free beds were available for such pathological cases as toxemias, cardiacs, hypertension, contracted and deformed pelvises. Twenty Caesarean sections were performed. Nineteen illegitimacy and four desertion cases were supervised this year, with the help of other recognized agencies. The social worker interviewed each patient and gave instructions as to hygiene in pregnancy, exercise, diet, and plans for confinement.

The Pediatric Clinic, under the supervision of Miss Glenn Hoover, is one of the busiest places in the hospital. It is in turn the quietest and noisiest, the gladest and sadest, but always most interesting. For the past two years Pediatrics has received twice as many new patients as any other clinic, and one-fourth the total new admissions. In 1936 we cared for 1,071 new children.

The groups to which we give special following are cardiac, nephritic, allergic, underweight, and infant feeding cases. There are now 500 children in the cardiac group, some of whom will need care and supervision throughout their lives. The next largest group is of babies from two weeks to two years of age, most of whom were born in St. Luke's, as were the other young members of their families. It is not unusual to have whole families attending various clinics, and it is very gratifying to see the confidence expressed in the intelligent cooperation of parents who consider the hospital their family doctor. The performance of doctors and other staff members in a private hospital assures individual attention and continuity of service which is ideal.

I have heard the social worker say that she often feels like the old woman who lived in a shoe, the question here being rather to find time to do what she knows how to do. During clinic hours, new patients are received and introduced to clinic routine, medical records are reviewed, reports checked, letters and social notes attached thereto, and parents' inquiries answered both in person and by telephone.

Throughout the year, selection is made of those children who, in our opinion, will profit most from summer camps, convalescent homes and special schools. We are indeed grateful to the Summer Camps—Holiday Home, Arden Shore, Camp Reinberg, Bowen Country Club, Sunset Camp, Salvation Army and the Chicago Daily News Sanitarium who free of charge took a total of 120 children from our clinic for two to six weeks. Twelve children were sent to convalescent homes and six to Spalding and Christopher Schools.

The Monday morning session of the clinic is essentially for supervision of colored infants and the care of medical conditions. The Tuesday session is divided into supervision of white infants and the nephritic patients. General medical patients are seen on Wednesday as are a few colored feeding problems. Thursday is now entirely an Allergy Clinic, in which hay fever, asthma and eczema are tested and treated. Friday the clinic is primarily for cardiac children, although one doctor is on duty for the examination of return patients and to attend to general medical conditions. On Saturday morning the session is for school children with nonspecialized conditions. Toxoids, Schick and Dick tests, and vaccinations are now given daily, the vaccine for this purpose being furnished by the Health Department.

X-Rays and electrocardiograms have been made available from the Bachmann Memorial Fund.

The Pediatric Clinic has enjoyed the continued assistance of the Volunteers and Gray Ladies, to whom we are most grateful. May we also express appreciation to Mead, Johnson & Company and to Abbott Laboratories for the liberal supply of Cod Liver Oil necessary for our infants' and children's care, as well as to Winthrop Chemical Company, Scientific Sugars, Nestle's Milk Products, Parke, Davis & Company, and M. & R. Dietetic Laboratories.

The Dermatology Clinic is held twice weekly with three doctors in attendance and Mrs. Edith Johnson as social worker. During 1936 there were 7,021 clinical visits, of which 4,418 were for anti-luetic treatment (86 new cases of never previously diagnosed

syphilis). We have followed all treatment cases carefully and report delinquent ones to the Health Department for special investigation.

Neuropsychiatric Clinic meets daily except Saturdays and Sundays, with six staff doctors in attendance, each of whom has been most generous in devoting many hours to the clinic. 1,864 visits were made. In making appointments for new patients, an attempt has been made to differentiate between organic and functional cases and to assign them to the doctor specializing in the fields in which these cases fall.

Although several individuals have been committed to State Institutions, many others with the guidance of the doctor and the material aid available through the various agencies have been able to make satisfactory adjustments in their own homes. In other cases a completely new environment helped to solve their problems.

Twenty-three patients were hospitalized on the Neurological service and have been subsequently followed in the clinic.

The Ear, Nose and Throat Clinic is held daily with eight staff members in attendance, supervised by our social worker, Mrs. Helen Shure. In the past year the clinic visits numbered 4,100. There is an operative clinic on Main 10 six days a week and the physician recommending the operation is in charge when the patient is admitted for surgery. 973 cases were operated in 1936.

Because of the limited number of beds available for both relief clients and gratuitous patients, only urgent cases can be accommodated.

In addition to the aforementioned clinics, the department of Peroral Endoscopy meets on Wednesday morning where direct examination of the lungs, bronchi oesophagus, and stomach is done on patients referred from all other clinics.

One of the most constructive services is that of care and treatment of the deaf. All possible medical assistance for these cases is offered, and in addition special instruction in private and public schools is secured.

The Eye Clinic, with Miss Ethel Bloomquist in charge, has had its usual heavy attendance in 1936 and many interesting pathological cases have been observed and treated. The public schools have become very "eye-conscious" due to the combined efforts of the Illinois Society for the Prevention of Blindness and the many

teachers who have been trained for Sight-Saving Classes and who have cooperated in the follow-up work done with these children.

Securing adequate medical care for our eye patients may depend on social factors, such as parental attitudes, the home situation and finances, and local resources. The Chicago Relief Administration purchased 250 pairs of glasses for clients through the clinic. The Social Service Eye Fund purchased 81 pairs of glasses for indigent patients.

Mrs. Mozelle Grimson, the clinic dietitian, interviewed in the food clinic per month approximately 200 patients. All instructions were individual with the exception of the teaching of the normal pregnancy diet to a designated group of prenatal patients. Group instructions for these patients were given in conjunction with research work being done on obstetrical patients. Home visits were occasionally made by the clinic dietitian to further assist the patient in carrying out dietary instructions.

Of the thirty different types of diets prescribed for patients, the majority of dietary instructions given were reduction, bland, high caloric, and diabetic diets. It is interesting to note that the greatest number of dietary instructions given were to non-relief patients during the year 1936 as compared to relief patients during the year 1935.

Dietary instructions to clinic patients necessitates considerable instruction on the budgeting of money for food in view of the economical status of patients and in the cases of the relief patients also entails the readjustment of food budgets to meet the requirements of the special diet.

Instructions given by the clinic dietitian were not limited entirely to clinic patients. Two student nurses weekly reported to the food clinic for instruction on low cost diets, food budgets, and observation of the instruction of patients.

We regret that we cannot recount the many vital cases in which our social service case worker, Miss Katherine Stephens, has carried comfort and aid into the homes and lives of our unfortunate patients. Her kindness and tirelessness have accomplished the seemingly impossible.

Our new Chevrolet, a gift from Mrs. Hixon, has been invaluable in making home calls and transporting our patients to and from the hospital.

Our records are a most important part of our work. The record room has grown by leaps and bounds, two new filing cases being added this year. Records have been kept by Miss Olive Keith Raftree, assisted by Mrs. Louise Crage, who together have thoroughly systematized the contents and keeping of our files. Our appreciation to Miss Tranby who for nine years has so accurately kept our accounts and financial records.

Throughout the year 48 student nurses have been assigned for constant duty with our Department. Their assistance has been most valuable. They have been aided with great faithfulness, interest and ability by our Volunteers, who in this service have helped to make possible the accomplishment of our many duties and services.

The St. Luke's Gray Ladies have not only rendered a period of service in our Department but continue to give their time and attention to our work. Certain of our Volunteers have entered the course of training for our Gray Ladies and whether they serve with us or elsewhere the Gray Ladies have, as a body, shown themselves skillful, thorough and remarkably competent.

We feel deep gratitude to the Helen Shedd Reed Fund, from which we have been able to supply private nurses for free patients on the request of the doctor in charge and without which we would have been in no position to do that, much as we might have desired.

We convey to our friends our appreciation of their generous gifts to the Department—to St. Chrysostom's Church for its donation of \$75.00; to the Church of the Holy Spirit in Lake Forest for its gift of \$54.00; and to Mr. Schweppe, Mrs. Kersey Coates Reed, the St. Luke's Alumni Association, the St. Luke's Staff Nurses, and Miss Eliza Campbell for their contributions amounting to \$268.66.

We wish that we could express sufficiently to the Medical Staff our great appreciation for the time each has so generously given and the unwavering interest each has always shown our patients, our clinic and our work. We desire Mr. Zabel, who for thirty years has so accurately and carefully filled our many prescriptions on all seven days of the week and at all hours, to know our appreciation and gratitude for his inestimable aid. To Mr. Wordell we are deeply grateful for his ready guidance in any and every difficult problem howsoever encountered and for the spirit, as well as the results, of his cooperation.

Because a great and permanent work, such as we believe the work in which we are engaged to be, derives its character and force from leadership in its conduct, we with heartfelt gratitude state to Miss Armstrong our admiration of her utterly tireless performance of her duties and her superb solution of every problem no matter when or how presented. Not only are her devotion and ability outstanding, but her generosity in the exercise of these qualities, towards patients and personnel alike, is so gentle and friendly that no review of the accomplishments of our Department would be fairly complete without recognizing the contributions of mind, character and time that Miss Armstrong has made to make possible, and in fact to make sure, the success and advancement of our purposes.

Respectfully submitted,

MARGUERITE P. WOLF.

BY-LAWS OF THE WOMAN'S BOARD OF ST. LUKE'S HOSPITAL

ARTICLE I.

The Board shall be called the Woman's Board of St. Luke's Hospital.

ARTICLE II.

Its object shall be to aid the Trustees of the Hospital to provide bedding, table linen, china, reading matter, delicacies, comforts for the sick and furnishings for the Hospital and the Elizabeth Stickney Home (The Training School for Nurses), also to invite the co-operation and secure the help of the Episcopal Churches and all charitable people of Chicago in the work of the Hospital.

ARTICLE III.

Section 1. Membership shall be of four classes: Honorary, Senior, Active and Associate.

Section 2. Honorary Membership may be conferred upon one who has rendered especial or distinguished service to the work of the Board. The name of one desired to be so honored shall be sent in writing, with the reasons therefor, signed by at least two members of the Board, to the Membership Committee. If the name is considered favorably by the unanimous ballot of the Membership Committee, it shall be recommended to the Board where election shall be by ballot. **A unanimous vote of the Board shall elect to Honorary Membership.** Honorary Members have all the rights and privileges of membership except the right to vote and hold office. Honorary Members pay no dues.

Section 3. Senior Members shall be chosen, on the recommendation or with the approval of the Membership Committee, from those who have served as active members of the Board. They shall have the right to attend all meetings, may vote at all meetings and have all the rights and privileges of active members except that of holding office. Senior Members shall not, unless volunteering or expressing a desire so to do, be considered available for active work or service at the hospital. Senior Members shall pay annual dues of \$15.00.

Section 4. Active Members shall not exceed sixty in number; shall pay annual dues of \$5.00, and have all rights and privileges of membership.

Section 5. Associate Members pay annual dues of \$10.00. They shall have the right to attend meetings of the Board, and shall be notified by card of the annual meetings. Associate Members do not vote nor hold office.

Section 6. Candidates for membership on the Board shall be recommended in writing by two members of the Board to the Membership Committee. The Membership Committee shall vote by ballot upon candidates so recommended, and upon unanimous vote same shall be referred to the Board for final action. The Board shall vote by ballot upon candidates recommended by the Membership Committee. Three negative votes shall defeat election.

Section 7. The Membership Committee shall consist of the three Vice-Presidents with the Second Vice-President as Chairman and two non-office holding members to be elected by the Board at the Annual Meeting.

ARTICLE IV.

Section 1. Officers: The Officers of the Board shall be a President, three Vice-Presidents, Recording Secretary, Corresponding Secretary and a Treasurer.

Section 2. At or prior to the November Meeting of the Board the President shall appoint a Nominating Committee of five members, whose names shall be announced by the Recording Secretary at the November Meeting. To this Committee shall be entrusted the recommendation of a ticket consisting of at least one name for each office to be filled. No one shall be recommended by the Nominating Committee whose consent to serve has not been first obtained. The ticket so prepared shall be announced at the December Meeting. After which a copy shall be mailed to all voting Members of the Board, and shall be presented to the Board at its January Annual Meeting, at which meeting nominations may also be made from the floor. The election shall be by ballot and a majority vote shall elect.

Section 3. The officers elected at the annual meeting shall serve one year and until their successors shall be elected and qualified.

ARTICLE V.

Section 1. There shall be an Executive Committee consisting of the Officers of the Board and Chairmen of all standing committees. The Executive Committee shall meet at the call of the President.

Section 2. It shall be the duty of the President to preside at all meetings, appoint all committees not otherwise provided for, and perform the ordinary duties of the President.

Section 3. The first Vice-President shall perform all the duties of the President in her absence.

Section 4. The Second or Third Vice-President shall perform the duties of President, in the absence of both the President and

the First Vice-President. The Second Vice-President shall be the Chairman of the Membership Committee.

Section 5. The Corresponding Secretary shall conduct all correspondence on behalf of the Board, and shall send the usual notices of meetings.

Section 6. The Recording Secretary shall keep and preserve reports and minutes of all the meetings, and shall mail copies of the minutes to the President and Corresponding Secretary. She shall also perform such other duties as may be directed by the Board.

Section 7. The Treasurer shall collect the dues and receive the Funds of the Board, and shall pay out money only as directed by the Board. She shall keep such records as may be prescribed by the Board, and shall submit to the President each month an accurate exhibit of receipts and disbursements.

ARTICLE VI.

Section 1. The annual meeting of the Board shall be held on the fourth Monday in January at 10:30 a.m., at which time the annual dues of \$5.00 shall be paid.

Section 2. The regular meetings of the Board shall be held at St. Luke's Hospital, on the second Monday of each month from October to June inclusive.

Section 3. Seven members shall constitute a quorum for the transaction of business at all meetings, including the Annual Meeting.

ARTICLE VII.

Section 1. Order of Business. The order of business for the Annual Meeting shall be as follows:

- (a) Prayer.
- (b) Roll Call.

ARTICLE VIII.

Duties of Members.

It shall be the duty of the members of the Woman's Board to attend the monthly meetings. A fine of \$1 for each absence from Board Meetings shall be assessed, except in the case of non-resident members.

ARTICLE IX.

Section 1. All Committees shall have power to increase their membership, adopt rules not inconsistent therewith, elect their own officers, the chairmen being members of the Board. Committees shall hold regular meetings at which the work of such committee shall be organized and transacted. The Chairman of each Committee shall report to the Board plans of work contemplated, and written report of the work accomplished.

ARTICLE X.

These By-Laws may be amended by a two-thirds vote at any regular meeting, notice in writing of the proposed amendment having been sent to all members of the Board.

ANY PERSON DESIRING TO BEQUEATH A LEGACY TO THIS CHARITY IS
